

# ELITE E-P3 PROFILE TEMPLATES

## HEEL GLIDES

Heel glides are flatter toward the heel (to enable stability and speed) and more curved toward the toe (for agility and acceleration). Heel Glides come in duo-, triple-, and quad-curve sequences.

EL4.3 (6-9-12-15)  
EL4.4 (6-9-11-26)  
EL4.5 (8-10-12-14)

## CENTER GLIDES

The Center Glide profiles flatten an area under the middle of the blade to provide more contact with the ice surface, while the toe and heel sections are more rockered.

#### Notes:

Custom templates available on request.

Except where otherwise indicated, numbers refer to profile radius in feet. All profiles are available in a neutral orientation.

All templates come with neutral and three forward pitched orientations: 1/64", 1/32" and 3/64".
